basenes of color prejudice, party poli-In conclusion, the defects of the pro-

f the measure under consideration ould be an almost endless task, and believed to be unnecessary. The bill could be an almost endings to be unnecessary. The bill is believed to be unnecessary. The bill is affected in the estate are gettered to page, and almost every page fairly bristles with provisions unantial for and in most instances, wholly impractionable, provisions that even if chacted into law, could not be put into operation. To a few, only, of these matters will attention now be called.

It may be stated in a general way that there was nothing to say. It is known that there was a conference held between the receiver and Mr. S. M. Damon, the heaviest crediter, but what conclusion had is not known.

a), educational, political and statu-

It is in many points directly in conflict, not only with existing Hawall-an statutes, but with the organic act as well. To make its provisions at all workable, would require a radical revision of the whole body of our statute

3. It assumes the existence of sounties, townships, municipalities, and other political and administrative units that do not now, and never did form ward this end. any part of our governmental system.

4. It provides for a large number of additional officials, most of whom would have to be paid, thus dividing responsibility, weakening efficiency, and adding largely to the cost of maintain-

ing the schools.
5. It would break up entirely the present uniformity in the examinations ind the grade of scholarship required.

6. It would do away entirely with the present salary schedule, and with any schedule under which teachers would be paid on a consistent and uniform system, based on qualifications and serand personal "pull" the sole standard.

 It appears to contemplate, and cer-tainly authorizes, a great reduction in the amount of schooling to be provided in the course of a year; a reduction mounting in some cases to nearly one-8. It would work greatly to the dis-

advantage of the smaller and poorer districts, not only diminishing the quantity, but still more impairing the quality of the teaching required.

9. It provides a way of receiving, andling and disbursing school funds hat is not only contrary to all sound ousiness principles, but is in direct outliet with the elaborate and care-fully prepared provisions of the nudit-act, which act controls all matters pering to the handling of Territorial

Further facts and arguments in support of the position taken in this mat-ter by the department could be presented almost indefinitely, but it is hoped that the foregoing are sufficient show two things:

"First-That there is no "emergency" whatever calling for Congressional ac-

ind-That the passage of the bill now pending would create an emergency of the gravest character; would throw our entire school system into disorder, and deal to the cause f education in these Islands the sever-

Colonel Davis was last here in the fall as a member of the fortifications board. which formulated the plan for the de-fenses of Honoiulu and the Island of Oahu. He has been appointed as the engineer officer on the staff of General Chaffee, and president of the board which is to prepare the plans for the

defenses of the Philippine group.
"I saw it printed before I left San Francisco that the plans for defenses of Honoiuiu. Cahu, had been approved by General Gillespie, chief of the corps, and that an appropriation had been asked for the inauguration of the work of construction. There evidently was misprint, as the fleure was put at \$5,000, but both Colonel Heuer and my-self believe that the amount meant was half million dollars. This will be enough to start this important There was nothing made public of this report, and there never is any open publication of plans for defenses. "There is a great deal to do in the Philippines, and I am looking forward to a very busy tour of duty there."

The transport Grant, which arrived off ppet and anchored outside on Monday night, docked in the naval slip yesterday morning. She showed signs of having encountered rough weather and her smoke stack was corrusted with sait. During the worst of the weather, several of the forward ventilators were car-

Young women make known their wants to her and she is turn hears from business houses that are in need of the assistance of young women clerks. There are at branch on women clerks. There are at present on the secretary's book the names of four young women who would like positions as clerks or cashiers in stores or as as sistants in offices. Some of these are ex-perienced. Stenographers occusionally have secured positions through the Y

## COAL FOR THE NAVAL SHIPS

Moored at Naval Dack No. 1, is the United States Naval colder Alexander, which arrived in port yesterday morning from Norfolk, Va., with coal for the naval station here. She has had a long yoyage, having left Norfolk on December 7, almost ten weeks ago. She proceeded to San Juan, arriving there a week later. On December 15 the left that port to continue on her yoyage, but was port to continue on her voyage, but was compelled to put back to make repairs to her machinery, which was disabled. The repairs were completed by December is, and she next made port at Monte-video, where naval stores were discharged for the U. S. S. Atlanta. Second offi-cer Leonard F. Cox died from eryspelas between San Juan and Montevideo, From Montevideo to Honoluly there was little to mark the voyage with incidents. The

The Navy Department is making a test of the shipment of coal in colliers from Norfolk to Honolulu, and the Asexander is the first vessel assigned to that duty. The test is to determine whether coal can be shipped cheaper in naval collers than by merchant vessels, as has been the cultom. Pecahentas coal is mainly used by the Navy. The last Pecahentas cost was brought here in the shtp Roan-oke, although it was intended for San Francisco. On account of the cargo be-ing on fire at sea the vessel put into this port, and discharged the dangerous car-

## ARCHAIC TORTURE.

In the old days of persecution, one of the favorile methods of execution was to tie the victim to a stake planted on the sea shore, and let him watch the waves as they rippled in, while the tide rose luch by inch, and every inch of the rising tide was a step nearer to death. That is a picture to make one shudder. But look at our own condition. Here is the man bound to his business, the woman bound to her household duties, like the victim to the stake, and one symptom of disease The only arrival yesterday was the after another shows the tide of death teamer Manua Lou, from Lahaina, Ma- closing in on them. The tide comes in alaca, Kona and Kau ports, which got so slowly that they don't realize their in at 8:15 a. m., with passengers, 7646 danger, often, until too late, when it bags of sugar, 30 head of cattle and a is useless to cry for help. Examine lot of sundries. lor of sundries.

She brought news that the wharf at Ke Au Hou was totally destroyed last Friday by heavy seas and that the wharf at Hoopuloa was partly wrecked on the same day. rising tide of disease. Do you want to be saved? Sagwa will save you. Sag-wa, the great Indian remedy, has saved e ag gained to it by means of a narrow thousands from just such peril. It hannel.
On Friday the waves broke on both blood. It enables the stomach to disides of the channel and banking up in gest and assimilate food. It cleanses the center toward the landing, rolled in the kidneys and tones up the liver. By with such force that the wharf could not removing the obstructions that prevent resist them, and had to give way. the harmonious working of the great resist them, and had to give way.
Following is Purser Simerson's report
of the trip:

"Fine weather and smooth seas at any medicine can do is to assist Na-Hamakua, no rain. Fine weather and ture.
